This report is based on claims as originally filed.

Documents cited in the International Search Report:

D1: WO 8808050 D2: SE 514165

The cited documents represent the general state of the art. The invention defined in claims 1- 13 is not disclosed by any of these documents.

The cited prior art does not give any indication that would lead a person skilled in the art to the claimed apparatus for separating steam from a mixture of steam and fibres, or to the claimed feeding means or method for feeding said mixtures. Therefore, the claimed invention is not obvious to a person skilled in the art.

Accordingly, the invention defined in claims 1- 13 is novel and is considered to involve an inventive step. The invention is industrially applicable.
